PICKENS, S. C. :

SATURDAY, FEBRUARY 23, 1907.

Massachusetts and South Carolina have buried the tomahawk, and both are now for tariff revision and state's rights.

The revolting testimony in the Thaw trial still encumber the metropolitan press. But the morbid taste of the public demands just such unsavory recitals.

A Washington scientist claims that he has found a way of making whisky without a worm. What is really needed, however, is something that will eliminate the snakes.

When a man pursuing the daily peaceful avocations of life goes around with a revolver on his person, it is prima facie evidence that he is either a fool or a criminal; and in either case he ought to be locked up.

Don't we need more backbone for the interests of humanity? Not a spinal column that cannot yield or bend; but upright, and that will fearlessly express upright and just opinions—a gentle, honest steadfastness, which is cruel never.

"Senator Foraker did not answer a single point I made," declared Senator Lodge to a friend after the recent Lodge-Foraker clash. "That's easy," said Foraker, hearing of Lodge's remark. "Senator Lodge didn't make any points."

The legislature fired the dispenser, the governor has fired the directors, discharged the constables and appointed a commission to wind up the affairs of South Carolina's "great moral institution," which all goes to prove that our senior senator is a false prophet.

The Charleston Post thinks it was very nice of Mr. Rockefeller to give thirty-two million dollars for education in the United States. And it was thoughtful of the Standard Oil company to raise the price of oil fifteen cents a barrel immediately upon the announcement of the gift.

The American importation of precious stones continues to increase. In 1904 it was \$34,998,513 as compared with \$26,086,813 in 1903, an increase of nearly \$9,000,000. This included \$10,281,112 worth of uncut diamonds, \$190,972 of diamond dust, \$6,850 worth of glaziers' diamonds and \$20,375.30 worth cut, but unset, diamonds.

A recent estimate places the total Roman Catholic population of the United States at 12,651,244, or an increase of 189,151 over a year ago. The total number of churches is 11,814, and the number of children attending parochial schools has increased to 1,066,207. The number of schools is 4,281, and there are 869 colleges or seminaries.

According to William E. Curtis, President Roosevelt's ambition is to occupy a seat in the United States senate from the state of New York after the expiration of his presidential term, following a trip around the world. He is said to make no secret of his desires in this direction. By the way, there is talk in Washington of making ex-presidents members of the senate as representatives of the country at large.

Roscoe J. Stiles, of Anderson, Ind., at one time president of Green River College, Kentucky, is at present conducting a blacksmith shop in his home city. He says: "I would rather be a strong, healthy blacksmith than a tired, worn-out college president, with the grave yawning for me." His grandfather, Ezra Stiles, was president of Yale University and was one of the most noted scholars of his day.

Mr. Hamp Stansill, who removed from the Olenoy section to Gordon county, Ga., about the year 1873, was killed last Saturday by a freight train near Calhoun Ga. Mr. Stansill was a Confederate veteran and had a number of relatives in this county.

Ernet Freeman has returned from Charleston, and will in future make Pickens his home. He has the paint and carpenters busy overhauling the store building lately occupied by Craig Bros., making ready for the opening of a full and all new stock of goods.

There is an exhibition at Bolt & Co.'s drug store a Masonic apron that is of interest to members of the fraternity. It is the property of Major J. J. Lewis, and was worn by his grandfather, Joseph Taylor. It is made of white satin, hand-painted, and was in use a century ago.

Married, on Sunday, 17th inst., at the home of the bride's parents, Mr. and Mrs. O. P. Fields, Miss Maggie Fields and Mr. Edward Alexander, of Oconee county, Rev. B. F. Murphree officiating. May their whole life be as pleasant as their wedding day is the wish of a host of friends.

Trim Hammond, one of the uncles of the old days, was in Pickens, Monday, and received a welcome from many of his white friends, who knew him as one of the "old-time darkeys." Trim gives his age as 108 years, and he is hale and hearty enough to be good for a couple of score more. His memory is good, and he delights in talking of the old "massa and misus" and the happenings of the days long gone. The old-time darkey is passing and his place can never be filled by the present generation. "More is the pity."

Anyhow, Thaw's money unearthed Delmas, remarks the Charleston Courier.

Filtering the air to be breathed in public school buildings in one of the later experiments in St. Louis, and is said to result in greater mental alertness and activity in the pupils. The suggestion has been advanced that the text-books in use be filtered next, for the reason that mental activity is wasted in tackling the trash with which too many arithmetic and grammar publishers have flooded the country. There is no doubt real need for reform in many of the books now in the schools.

Consider what the hen does when she is working, now that her strike season is on and she clamors for rations. The market value of "Biddy" is about 50 cents and the value of her daily product 2 cents, or one twenty-fifth part of her own worth. True, her career is short, but long enough for her to earn her value many times over, and that cannot be said of one in this world who have great pretensions to usefulness.

Was Hamlet Fat? Was Hamlet fat or slender? M. Catulle Mendes, who held the latter view, was nearly killed by a sword thrust of M. Vanor, who leaned to the hundred kilos. Unfortunately the rapiers only pierced the skin of the duelist and not the mystery which was the cause of the dispute—Pierre Lerouge in Paris Revue Generale.

For Nonsupport. She—I can't understand why Lord Busted wants a divorce. His wife had half a million when he married her. He—Yes, and she's got every penny of it still. That's the trouble.—Pick-Me-Up.

Exercise Without Effort. Miss Gaysett—Do you golf, Mr. Slopechin? Mr. Slopechin—Quite a good deal, y'know. I have me go round the course f'me twice a week.—Puck.

NOTICE. Whereas, on the 15th day of February, 1907, a commission was issued by the Hon. R. M. McCown, Secretary of State for Carolina, authorizing and empowering T. D. Harris, R. E. ## Over-Work Weakens Your Kidneys.

Unhealthy Kidneys Make Impure Blood.

All the blood in your body passes through your kidneys once every three minutes. The kidneys are your blood purifiers, they filter out the waste or impurities in the blood. If they are sick or out of order, they fail to do their work. Pains, aches and rheumatism come from excess of uric acid in the blood, due to neglected kidney trouble.

Kidney trouble causes quick or unsteady heart beats, and makes one feel as though they had heart trouble, because the heart is over-working in pumping thick, kidney-poisoned blood through veins and arteries. It used to be considered that only urinary troubles were to be traced to the kidneys, but now modern science proves that nearly all constitutional diseases have their beginning in kidney trouble. If you are sick you can make no mistake by first doctoring your kidneys. The mild and extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy is soon realized. It stands the highest for its wonderful cures of the most distressing cases and is sold on its merits by all druggists in fifty-cent and one-dollar sizes. You may have a sample bottle by mail. Home of Swamp-Root, free, also pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing Dr. Kilmer & Co., Binghamton, N. Y. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.
